GET GOOD WHISKEY.—You would not knowingly swallow poison. When you drink poor whiskey you poison blood, body and brain. Besides this you don't enjoy the drink. Buy good whiskey. There's comfort, health and enjoyment in it. If overworked, worried or run down, you need a warming, soothing tonic. Nothing like good whiskey. It aids digestion, makes flesh and invigorates the system. Good whiskey does this, mind you. Poor whiskey irritates the stomach, inflames the tissues and poisons the blood. You can't afford to run risks; get the best; it pays. Physicians drink and recommend I. W. HAMPNER'S Nelson County, Ky. Whiskey. Sold by Young & Hamilton, Owingsville, Ky.

GETTING READY.
Preparations for Any Emergency That May Arise Out of the Cuban Situation.
WASHINGTON, March 2.—In the past few days there has been a renewal of naval activity and the issuing of orders for the preparation of vessels for service which recalls the action of the navy department immediately following the president's Venezuelan message.

The object of the administration in holding its naval force in full fighting trim is believed now to be due to the possibilities of trouble which might follow the adoption by the house of some resolutions for the recognition of Cuba. Strong efforts are being made by Secretary Herbert to prepare every available vessel for service with the least possible delay.

broken up, a man who had listened to the words glorifying Spain and denouncing the United States proceeded to the American consulate where they gave vent to their patriotism by stoning the building much to the damage of the windows thereof.

As in previous mob demonstrations in Barcelona, the police were almost impotent to disperse the rioters, who did about as they pleased.

In the evening there was another outburst of disapproval of the United States and all things American. This time it took the form of publicly dishonoring the American flag. The rioters had purchased somewhere a large American flag, which, after it had been dragged through the streets, was pulled to pieces amid cries of "Long Live Spain," and "Down with the Americans." There is still much excitement in the city.

After this outrage on the American flag the mob became more violent and a proposition to make a further demonstration against the American consulate was speedily acted upon. The mob proceeded to the consulate, in the meantime arming themselves with stones. Arriving at the consulate a perfect volley of missiles was directed against the shield over the doorway bearing the American coat of arms, which was battered almost to pieces. The mob in some way became possessed of several American flags, which were destroyed amid ribald jests and expressions of contempt for the nation they represented.

The situation was becoming more and more threatening when reinforcements for the guards at the consulate arrived in the shape of a detachment of gendarmes. The crowd was ordered to disperse, which they very sullenly refused to do, whereupon the gendarmes charged them with drawn swords and put them to flight. Several of the rioters were injured by being trampled on.

Since then every effort has been made by his family and the state officers to locate him, but no clue to his whereabouts can be found.

A Peculiar Case Decided.
GOSHEN, Ind., March 2.—A peculiar case was decided in favor of the defendant, Charles Cray, who was up for public intoxication. The plea set up by his attorney was that one could not tell from the looks of the man of the peculiar face, with which he is favored, whether he was drunk or not. There was a long array of witnesses called, and much interest aroused in the case, because of Cray's prominent family connections. The jury wrestled four hours before finally bringing in a verdict of acquittal.

Why They Receive a Telegram From Minister Terrell on the Situation.
WASHINGTON, Feb. 29.—A long telegram was received by Secretary Olney Friday from Minister Terrell at Constantinople telling of great distress in Armenia. He says that the inhabitants of Zeitoun and its vicinity are suffering from the ravages of smallpox and other diseases and from want of food. Relief expeditions are fitting out as fast as possible.

The progress is, however, necessarily slow and uncertain because the valleys are deep in water and almost impassable, while the mountains are filled with snow and the weather is unusually cold. The English-viceroy consul at Zeitoun has sent relief to Harpoot and the sultan has issued an imperial decree forwarding protection and facilities to the agents of the Red Cross society.

THE LONDON CHRONICLE
On the Cuban Resolutions Passed by the United States Senate.

LONDON, Feb. 29.—The Chronicle says Saturday: "If President Cleveland decides to act upon the resolution of congress, his action will be one that Spain will perform regard as hostile to her interests. Whatever the rights or wrongs of the case, no power would tolerate a request from another power to give independence to a rebellious colony. Doing so would involve abdicating all position of sovereignty. That Spain will do so is inconceivable, yet it is difficult to see what effective opposition she could offer if the United States is determined to follow their good offices by action. The American government, however, is entering upon a thorny road. It must be assumed that it realizes all the responsibilities it proposes to incur."

British Ship Founders.
SAN FRANCISCO, Feb. 29.—The captain of the barentine Gleaner, which recently arrived from Astoria, reports that on January 22 last, while off Cape Disappointment, he was in company with the missing British ship Cadzow Forest, from Callao for Portland from 9 o'clock in the morning until 11 at night. The Gleaner signalled a tug and was towed into the Columbia river that night in the teeth of an awful storm. The Cadzow Forest has not since been heard of, and it is now supposed she foundered with her crew of 30 men during the tempest of the night of January 22.

Too Much Faith Killed Him.
INDIANAPOLIS, Ind., Feb. 29.—Coroner Castor Friday evening returned his verdict in the case of Edward Grot-haus, who died Wednesday, without the attendance of a physician other than Mrs. Dorland, who professes to cure by Christian Science. The verdict says that death was largely due to neglect in not employing a physician, the patient having relied on the so-called Christian faith. "And I further find," reads the verdict, "that Mrs. Dorland, 129 N. Pennsylvania street, is partially responsible, as she, as a Christian Scientist, had charge of the case."

On the conclusion of the reading Mr. Sulzer (dem., N. How Weak

the soap and water seems when you begin your washing! You don't get any strength out of it till the work is about done. Plenty of hard work and rubbing and wear and tear, even then—but more of it at the beginning; when the water is weakest.

Now with Pearlina, the water is just as strong at the beginning as at the end. This is one of the reasons (only one) why Pearlina acts so much better than soap, in all washing and cleaning. Use no soap.

The way of most politicians is more or less tricky. Some are not too tricky, but just tricky enough. Others are so tricky that their vaulting ambition overleaps itself and falls sprawling on the other side. Dr. W. Godfrey Hunter did that way. The Doctor appears to have been all sorts of things politically to the different people whose support he desired. He was for sound money in the State Convention, but in order to secure Poor's and Edgington's support he signed an agreement to help restore silver to the position it occupied prior to 1873. A few of the Republican Legislators had already drifted away from him. The publication of his silver agreement settled the business. The Doctor saw he was to be left. He then withdrew from the race and departed for Washington. A lasting feud will exist between Hunter and Bradley. Hunter will duly avenge his "wrongs" and everything will be no merrier in the Republican party of Kentucky than in the Democratic party.
